[State Department warns that Cameroon is a high-risk travel destination for U.S. citizens](#) 4 January 2016

The U.S. State Department is warning Americans about the high risk of traveling to Cameroon. In particular, the department said, U.S. citizens should avoid all travel to the north regions because of the general threat of violent crime, terrorism and the targeting of Westerners for kidnappings and murder.

The terrorist group Boko Haram continues to be a presence in the region. Since July 2015, the group has carried out at least 14 suicide bombings in the north, the State Department reported. The northeastern Nigerian Islamist group has been even more deadly than Islamic State this year. ....

[State Dept. issues worldwide travel alert for U.S. citizens due to increased terrorist threats](#) 20 December 2015 (MyFoxBoston.com) -- The State Department issued a worldwide travel alert for U.S. citizens Monday due to increased terrorist threats.

According to the State Dept., their latest information says that ISIL, al-Qa'ida, Boko Haram, and other terrorist groups are planning attacks in several regions. The department says the attacks may involve a variety of tactics, including conventional and non-conventional weapons and "targeting both official and private interests."

The department also believes there is a continuing threat from "unaffiliated persons" that may plan attacks inspired by other terrorist organizations.

U.S. citizens should take extreme caution when traveling, the department says, and always be aware of your surroundings. This alert says Americans could be at risk anywhere throughout the world.

Homeland Security Expert Anthony Amore said, "There wouldn't be an alert if there wasn't some intelligence telling the government that Americans have to be on the lookout."

[Democratic Republic of the Congo Travel Warning](#) Saturday, December 05, 2015 :: Staff infoZine

The Department of State warns U.S. citizens of the risks of travel to the Democratic Republic of the Congo (a.k.a. DRC or Congo-Kinshasa).

Washington DC - infoZine - U.S. citizens should avoid all but essential travel to the provinces of North Kivu, South Kivu, the provinces of Bas-Uele, Haut-Uele and Ituriz (northeastern part of the former Oriental Province) and particularly the new provinces of Tanganyika and Haut-Lomami (northeastern and central parts of the former province of Katanga), where instability and sporadic violence continues. Very poor transportation infrastructure throughout the country and poor security conditions in eastern DRC make it difficult for the U.S. Embassy to provide consular services anywhere outside of Kinshasa.
